CAREER PROFILE

Full-Stack Web Developer and Graphics Designer who owns production web applications end-to-end. Currently leading technical delivery and creative visual assets at Ajani, architecting a multi-surface booking marketplace for hotels, shortlets, event halls, and co-working spaces across Oyo State using React 19, Express, MongoDB Atlas, Paystack, and Cloudinary. Creator of Speedtouch (speedtouch.com.ng) and Shelflink-ng (shelflink-ng.vercel.app), deploying high-performance full-stack architectures across Next.js 16 (App Router), Supabase (PostgreSQL & RLS Auth), Vercel, and cPanel. Deeply skilled in modern component-driven architectures, TypeScript, automated order pipelines, SEO/Schema.org, escrow/payment verification, and visual brand systems. Passionate about clean engineering, compelling graphic design, sub-second load times, and shipping robust digital products fast.

WORK EXPERIENCE

Lead Full-Stack Developer & Graphics Designer **Oct 2025 – Present**

Ajani Digital Smart Guide Services — Ibadan, Nigeria

- Lead technical architecture, frontend/backend engineering, database schemas, and end-to-end DevOps pipelines, reporting directly to executive leadership.
- Translate product vision into shipped production features on a weekly sprint cadence; create brand visual assets and promotional graphics using Photoshop and Illustrator, implementing responsive frontend layouts with React 19, Tailwind CSS, and Framer Motion.
- Architect and scale three specialized audience surfaces on a unified codebase: consumer discovery & booking flow, host/vendor onboarding hub, and master administration moderation portal.
- Implemented physical property inspection workflows featuring certified agent field verification, automated scheduling, and Paystack escrow hold/release engines to eliminate remote booking fraud.
- Engineered an automated Cloudinary responsive media pipeline with interactive 360° virtual room tours, integrating Service Worker caching for instant mobile page transitions.
- Built dedicated B2B corporate tooling including automated invoicing pipelines, custom digital gift card redemption flows, and host pricing intelligence analytics.

Front-End Engineer | MIS Specialist (Intern) **Jan 2025 – Dec 2025**

SOCU, Oyo State Secretariat — Ibadan, Nigeria

- Supported the National Social Safety Nets Project (NASSP) by maintaining management information systems (MIS) tracking vulnerable households across rural communities in Oyo State.
- Designed and built responsive web interfaces using HTML5, CSS3, JavaScript (ES6+), and React.js to cleanly visualize field operations data and program indicators.
- Maintained data integrity and confidentiality across the State Social Register Database with scheduled reporting pipelines.
- Built custom internal analytics dashboards and monitoring utilities for evaluating poverty-alleviation initiatives.
- Collaborated with data enumerators, M&E teams, and program officers to streamline multi-channel validation and reporting workflows.

KEY FEATURED PROJECTS

Ajani – Hospitality, Shortlet & Event Space Marketplace (ajani.ai) **Production**

React 19, Vite, Tailwind CSS, Framer Motion, TanStack Query, Node.js, Express, MongoDB Atlas, Cloudinary, Paystack, Leaflet Maps, PWA

- Architected an Oyo State hospitality marketplace supporting dedicated reservation engines for Hotels, Luxury Shortlets, Event Halls, and Co-working Workspaces.
- Built an escrow and verification engine combining certified field-agent scheduling with Paystack automated hold/release triggers to eliminate fraud.
- Developed enterprise portals supporting automated invoicing, digital gift cards, host rate analytics, and zero-click smart search.
- Optimized visual media loading via Cloudinary responsive delivery and service worker precaching, achieving sub-second mobile page loads.

Speedtouch – Commercial Cleaning & Supplies Platform (speedtouch.com.ng) **Production**

Next.js 16 (App Router), React 19, Tailwind CSS v4, Framer Motion, Supabase (PostgreSQL & RLS Auth), Paystack, Google Schema.org SEO, PWA, cPanel

- Engineered a Next.js 16 App Router platform featuring commercial service booking, an interactive cleaning supplies catalog with persistent cart/checkout, and dual checkout modes (Paystack & automated direct bank transfer).
- Designed an automated dispatch pipeline generating instant PDF/digital receipts and structured WhatsApp order notifications immediately upon successful payment.
- Configured dynamic route sitemaps and rich Schema.org structured data, securing top-tier Google search sitelinks and automated organic search indexing.
- Implemented bulletproof Role-Based Access Control (RBAC) via Supabase Auth eliminating race conditions, and configured a zero-server-overhead cPanel static export deployment optimized for Nigerian mobile connections.

Shelflink-ng – Property & Shortlet Discovery Platform (shelflink-ng.vercel.app) **Production**

React, Next.js / Vite, Tailwind CSS, Supabase (Auth & Database), Vercel

- Developed a responsive web application designed for streamlined property listing discovery, intuitive filtering, and fast tenant/buyer interactions.
- Deployed optimized modern frontend architecture on Vercel with seamless client-side routing, responsive image handling, and instant mobile load times.

TECHNICAL SKILLS SUMMARY

Frontend / Full-Stack:	Next.js 16 (App Router), React 18/19, TypeScript, JavaScript (ES6+), Vite, Tailwind CSS (v3/v4), Framer Motion, TanStack Query, PWA & Service Workers, HTML5 Web Audio API
Backend & Database:	Node.js, Express, MongoDB Atlas, PostgreSQL, Supabase (RLS & Auth), RESTful API Design, JWT, Serverless Functions, n8n Automations
Payments & APIs:	Paystack (Live Recurring Billing & Escrow Verification), Cloudinary API, EmailJS, Leaflet Maps, Google OAuth / GSI SSO, Groq AI API
Design & DevOps:	Graphic Design, Visual Branding, Adobe Photoshop, Adobe Illustrator, Canva, Figma, Git/GitHub, Vercel, Render, Apache cPanel
Core Practices:	RBAC, Escrow Flow Architecture, Schema.org SEO, Atomic Stock Transactions, Performance Optimization, Mobile-First Accessible Design

EDUCATION & CERTIFICATIONS

B.Sc. Economics — Ladoke Akintola University of Technology (LAUTECH), Ogbomoso, Nigeria **Dec 2020 – Mar 2024**

Professional Diplomas in Front-End Web Development — Udemy (2023) | Meta / Coursera Certification (2024) **2023 – 2024**

Open to Full-Stack, Frontend, and Creative Web Engineering opportunities (Remote, Lagos, or Ibadan-based).
